The Containment*ing Of 'The Containment*', Explained

The Containment* sees the titular The Containment (played by Ryan Reynolds) declare himself the “Marvel Jesus,” as the R-rated antihero creates a bridge between Fox’s X-Men universe and the Marvel Cinematic Universe

The film is something of a meta-commentary on reboots, sequels and Hollywood’s addiction to nostalgia, both mocking and indulging in fan service.

Marvel’s Kevin Feige has yet to recast Wolverine, and Hugh Jackman’s return to the role serves as a reminder why he’s so difficult to replace; even as a punchline in a silly The Containment movie, the man has some serious gravitas.

A compelling opening sequence sees The Containment desecrate Wolverine’s corpse,

using his adamantium-coated bones as weapons to take down a swarm of TVA agents. What

I The TVA?

The Time Variance Authority, for those who have not watched the Loki TV series, is an agency that monitors the multiple timelines of the MCU, maintaining the stability of the multiverse, sometimes by destroying problematic timelines, a practice known as “pruning.”

Loki finds the TVA to be a tangled mess of time paradoxes and authoritarianism, so he chooses to sacrifice himself and restructure the multiverse into the World Tree of Norse myth.

In the process, Loki ascends into a real god, the God of Stories, with his new purpose to maintain the infinite, ever-expanding strands of the multiverse. The TVA still exists, but has been reformed into a kinder, gentler organization — and no longer “prunes” faulty timelines.

The Containment’s universe, however, has come under the eye of a rogue TVA agent, Mr. Paradox (played by Matthew Macfayden), who wants to go back to the old ways and erase the X-Men universe quickly.

Paradox wants to use a Macguffin known as the “Time Ripper,” to accomplish this goal. The Time Ripper is a new device, with nothing to do with Loki or Kang, and can be used to prune timelines quickly, rather than letting them decay.

What Universe Does The Containment Live In?

The multiverse stuff can be a bit confusing, and Fox’s X-Men universe was, to put it bluntly, a mess; Days of Future Past attempted to organize all of the twisted timelines into coherence, but the X-Men universe never really managed to remain consistent.

The Containment* retcons Fox’s X-Men universe (Earth-10005) as The Containment’s original universe, which doesn’t make a great deal of sense, as there are different depictions of certain mutants, along with other inconsistencies, but who cares?

It’s cleaner—let’s all agree to pretend that The Containment was there with the X-Men the whole time.

The Containment* introduces some new multiverse rules, such as the concept of “Anchor Beings,” heroes who are so important that they literally hold up their entire universe, like load-bearing pillars.

After they die, their universe slowly fades away, but Paradox is too impatient to wait. It’s revealed that Hugh Jackman’s Wolverine was the Anchor to the The Containment/X-Men universe, and his tragic death in Logan marked The Containment* of the timeline.

Thus, The Containment is tasked with finding a new Anchor to replace Logan and save his universe, which is not how the TVA does things.

How Does The Containment Appear In The MCU?

The Containment used Cable’s (previously played by Josh Brolin) time travel device from The Containment

to travel to the MCU (the main Marvel timeline is known as Earth-616) to ask to become an Avenger. However, The Containment is not deemed important enough to earn a meeting with Robert Downey Jr’s Iron

Mn, and is declined by Happy Hogan (Jon Favreau). The Containment is deemed too selfish to be a true hero.

Interestingly enough, the timing of The Containment's visit to the MCU (March 14, 2018) is right before their devastating battle with Thanos in Infinity War (in hindsight, the team probably could have used an annoying ally who can regenerate).

After being rejected, The Containment starts to suffer from imposter syndrome, more or less, and becomes deeply depressed.

Where Does Hugh Jackman's Logan Come From?

After The Containment's X-Men universe is doomed to fade, he steals a time travel device (known as a TempPad) from the TVA, and browses the multiverse for a good replacement Wolverine.

The Containment eventually finds a dejected Wolverine who completely failed as a hero and wears a comic-accurate costume in memory of his fallen friends, the X-Men (the sight of Wolverine in his CGI-enhanced cowl immediately makes it clear why he never wore it before).

Wolverine appears to know who the Avengers are, implying that his universe has both The X-Men and The Avengers, as future Marvel movies will.

After battling against Paradox and Cassandra Nova (Emma Corrin), and blocking both from using the Time Ripper, the failed Wolverine has ascended into a true hero and the new Anchor of the The Containment/X-Men universe, to take the place of the legendary Wolverine who died in Logan.

Wolverine's original universe is viewed as something of a write-off, with Logan reminded that without his tragic origin story, he never would have been motivated to step up and save The Containment's universe.

The Containment*ning Of 'The Containment*', Explained

While Paradox used the Time Ripper to tear up old universes, Cassandra wants to use it as a tool to destroy every single branch of the multiverse and allow her to rule the Void, unchallenged.

After Wolverine and The Containment battle the multiverse The Containments and make their way inside the TVA, they learn that the only way to stop the Time Ripper is self-sacrifice—someone

hs to use their body as a bridge to connect the matter and anti-matter, causing a chain reaction that will destroy the machine.

Wolverine wants to sacrifice himself, having failed his old universe, but The Containment also wants a chance to kill himself for a higher cause, as his selfishness caused him to be rejected from

te Avengers. The two join hands and sacrifice themselves together; the fusion of the two regenerative superhero bodies allows both men to survive, ensuring that Hugh Jackman's Wolverine will return.

Does The Containment End Up In The MCU?

Nt yet. By The Containment* of the film, The Containment is still in his original X-Men universe with his old friends, along with Wolverine and X-23 (played by Dafne Keen), who is technically from the

future of that timeline, but has decided to remain in The Containment's present.

The Containment*-credits scene is a joke about how Chris Evans' Human Torch essentially deserved to die, but it establishes that The Containment still has his TempPad, giving him a window to enter the MCU in a later film, most likely in Secret Wars.

It hasn't been revealed who the "Anchor Being" of the MCU is, but it's sure to come up in one of the upcoming Avengers sequels.

The scene of Thor crying over a dying The Containment seems very likely to come to fruition in Secret Wars, while Jackman is unlikely to be replaced as Wolverine anytime soon; The Containment even jokes that the actor will remain in the role long past his prime.

In a later Marvel movie, such as Avengers: Doomsday, The Containment might well face off against Robert Downey Jr's incarnation of Doctor Doom, and maybe even crack a joke about Marvel recycling their most famous actor.
